Building Support Systems That **Build India**

Scaffolding & Formwork
Solutions on Rental

Reliable • Safe • Engineered for Performance

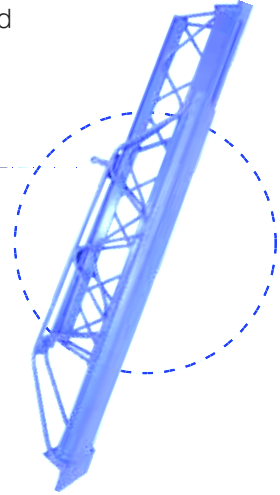

Our Product Range

We offer a comprehensive range of steel products designed for industrial strength and performance.

Adjustable

Telescopic Spans

Span is designed to provide maximum safety with minimal supervision on site. It is a strong and reliable platform that do not require intermediate support. Ensures efficient performance in construction applications.

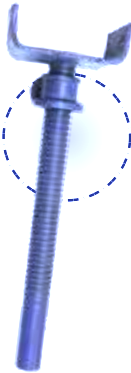

Specifications:

- Sheet Thickness: 2 mm
- Lattice Bars: 10 mm
- Main Bar: 16 mm
- T Section: 40 × 5 mm

Adjustable Stirrup Head (U Jack)

Fitted on top of the standard to support channels and plates. The U-shape ensures proper positioning and balanced support. Made out of MS Bar 32mm/36mm rolled threading with adjustment.

Available in sizes:

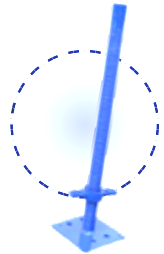

- U size 100 × 100 × 50
- Length 350 mm to 750 mm

Adjustable Base-Jack

Threads are provided after 75 mm from the top for height adjustment as per ground variations. Made out of MS Bar 32mm/36mm rolled threading with adjustment.

Available in sizes:

- Base plate 150 × 150 mm & 6mm thick
- Length 350 mm to 750 mm

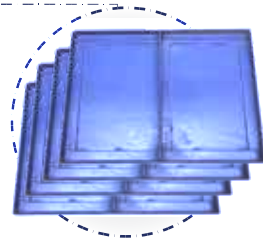

MS Shuttering Plates

3 mm thick sheet used as support for slab casting.

Available in sizes:

- 3 × 2 ft, 3 × 1.5 ft, 3 × 1.25 ft, 3 × 0.75 ft
- 3 × 0.5 ft, 4 × 1.5 ft

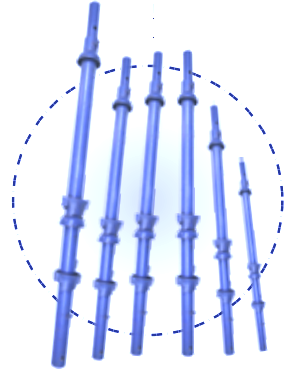

Cuplock Vertical/Standard

Cup-lock standard have cup joints welded at every 500 mm intervals, thus offering levels for working & also for bracing the standard while using in the slab support when loaded. Made out of steel tube confirming to IS 1161/ IS 1239 Grade.

Available in sizes:

3.0 mtr • 2.5 mtr • 2.0 mtr

1.5 mtr • 1.0 mtr • 0.5 mtr

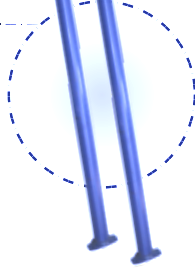

Horizontal/Ledgers

Horizontal member used to connect vertical standards and form the framework.

Helps maintain alignment and structural stability.

Made out of steel tube confirming to IS 1161/ IS 1239 Grade.

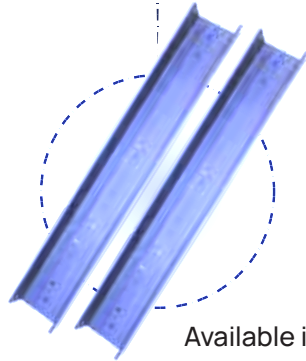

Available in sizes :

2.0 mtr, 1.8 mtr, 1.5 mtr, 1.2 mtr, 0.950 mtr,

0.915 mtr, 0.600 mtr

Steel Channels

Available in sizes :
8 ft, 9 ft, 10 ft

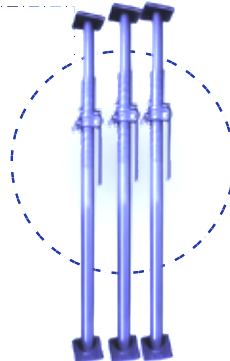

Adjustable

Telescopic prop

Used as an adjustable support system in construction. Provides temporary support for slabs and beams. It is made out of 60 mm (outer) O.D and 48 mm (inner) O.D tubes moving telescopically in each other.

Available in sizes :

2 × 2 mtr • 2 × 3 mtr • 3 × 3 mtr

Antiskid Plank with Toe Guard

Placed over ledgers and standards for movement of manpower and material handling. Provides a stable working platform.

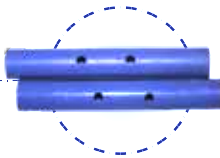

Available in sizes :
1.5 mtr, 1.2 mtr, 1 mtr

COUPLERS/CLAMPS

Specifications:
Fixed, Movable

Spigot / joint pin

Each product is manufactured with a focus on strength, durability, and precision, ensuring reliable performance in demanding environments.

At Mainee Steel Works, we specialize in delivering high-quality steel products engineered to meet the demanding requirements of modern industries. With a commitment to precision manufacturing and quality control, we provide reliable solutions that ensure durability, strength, and long-term performance.

Our focus on innovation, advanced technology, and customer satisfaction allows us to serve clients across multiple sectors with products that meet international standards.

Why Choose Us

- Premium quality materials
- Precision manufacturing processes
- Strict quality control standard
- Reliable and timely delivery
- Customized solutions for diverse industrial needs

We believe in building long-term partnerships by delivering products that consistently exceed expectations.

Industries We Serve

- Construction and Infrastructure
- Manufacturing and Engineering
- Automotive Components
- Industrial Fabrication
- Machinery and Equipment

Our solutions are designed to support industries where strength, reliability, and quality are critical.
